

NICOLE

Network for Industrially Co-ordinated Sustainable Land Management in Europe

NICOLE Innovation Working Group Mix & Match Event

Tuesday 28th September 2021

On Tuesday 28th September 2021, we will host the NICOLE Innovation Working Group Mix&Match Event.

Hereby, we would like to invite our NICOLE Industrial members, academic research partners, and service providers including external start-up companies to participate in an event to match innovative solutions for Sustainable Contaminated Land Management with those who would like to collaborate in testing them with real projects.

The virtual meeting will be organized via the Gather.Town App.

Make a reservation in your agenda for the afternoon of Tuesday 28th September 2021 to attend this highly interactive Mix&Match Event.

Parties with innovative technologies or approaches should send their proposals for this Mix&Match Event can be sent before the 27th August 2021 to the [NICOLE secretariat](#).

More information on how to apply to present your innovative technology or approach will be announced in the upcoming call for projects.
